Hooked 2024-2025

Welcome to Hooked's 2024 Catalogue, where **creativity meets sustainability** in the vibrant yarn world. Established in 2008 with a mission to pioneer textile waste reduction, Hooked has continually pushed the boundaries of creativity and eco-consciousness in the crafts industry.

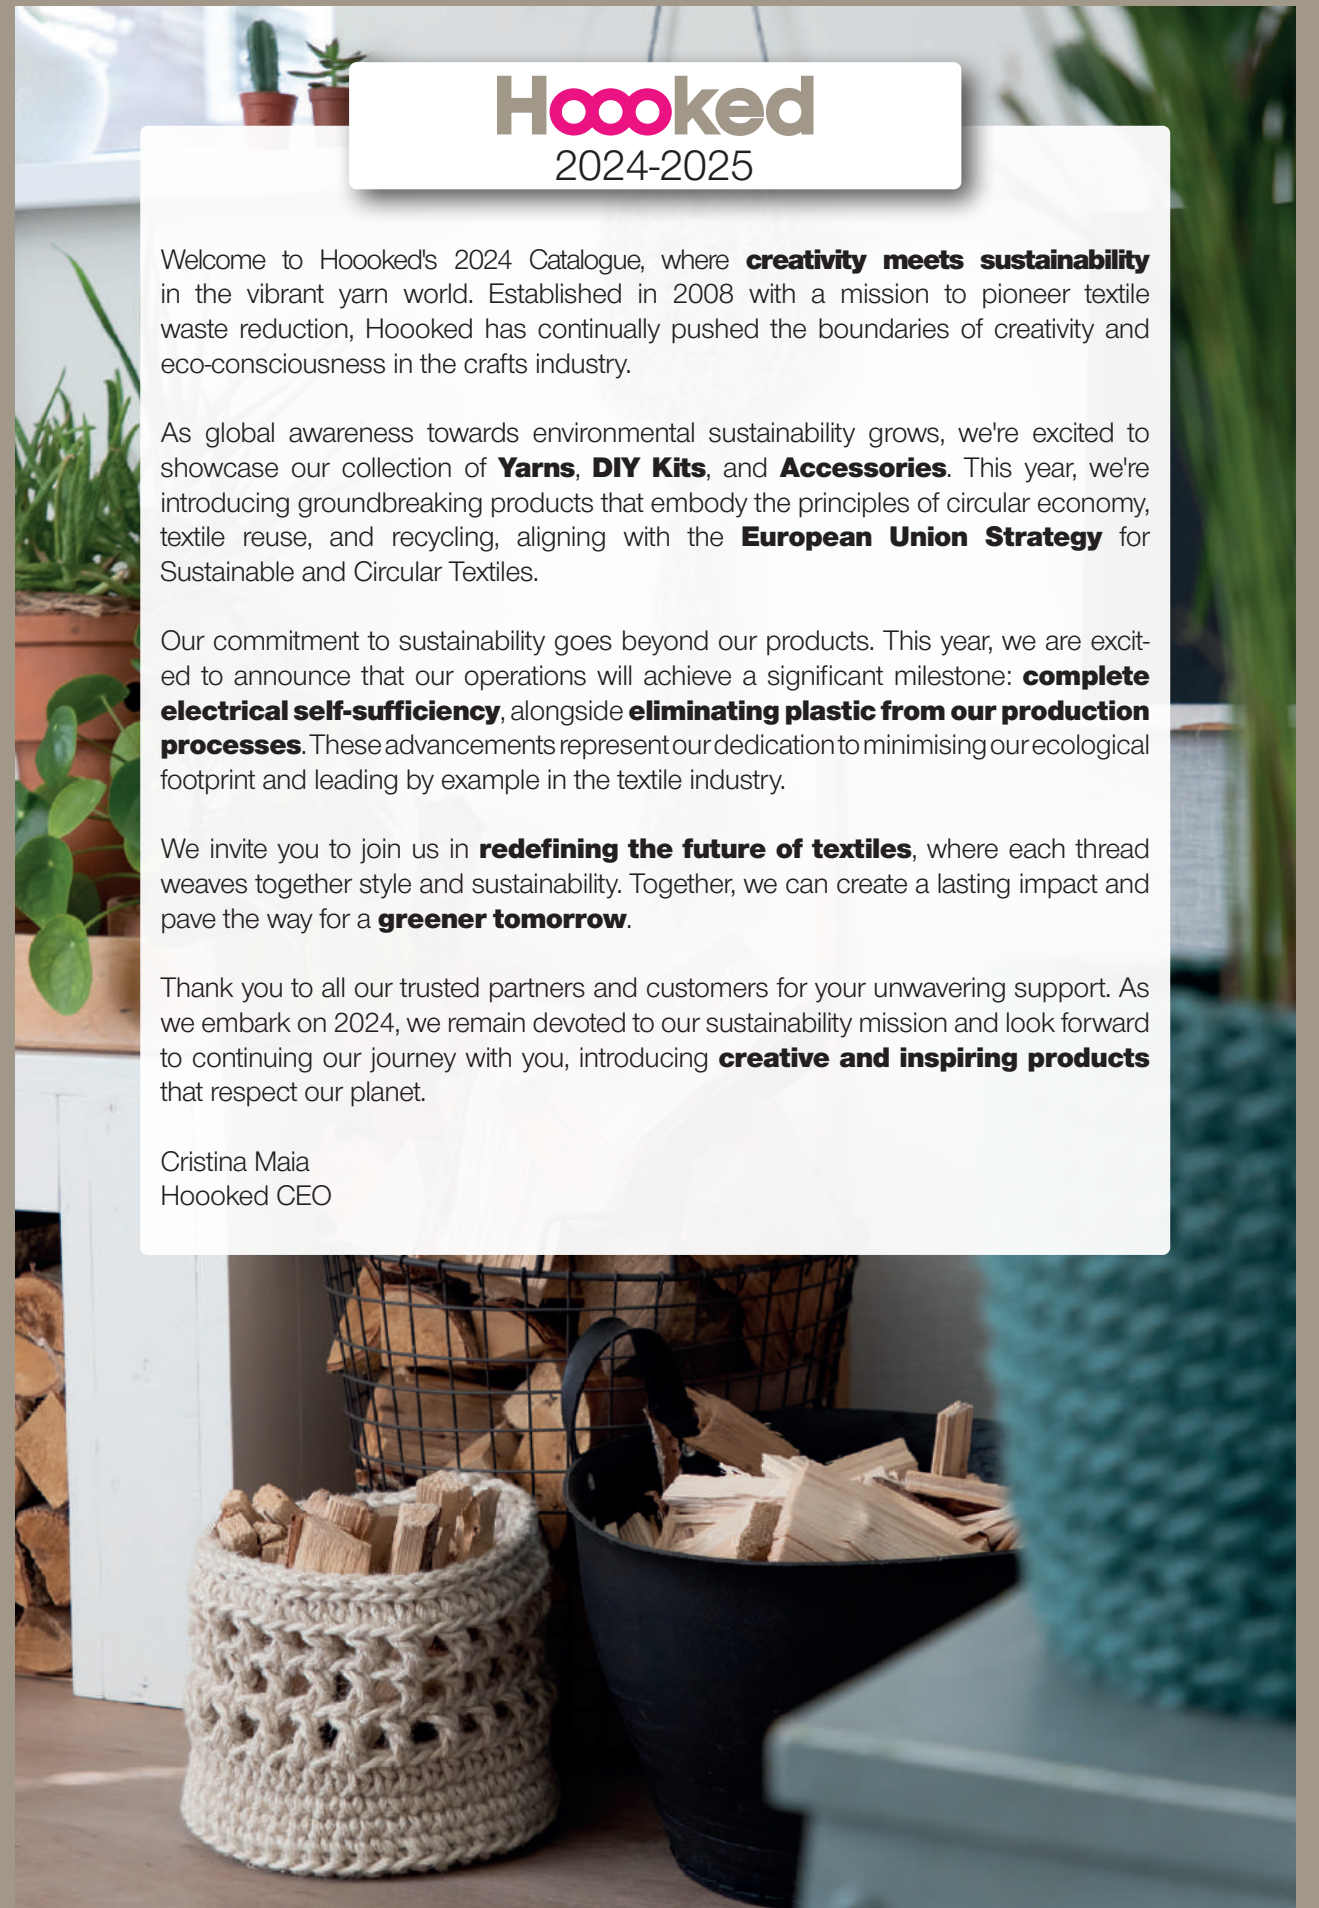

As global awareness towards environmental sustainability grows, we're excited to showcase our collection of **Yarns, DIY Kits**, and **Accessories**. This year, we're introducing groundbreaking products that embody the principles of circular economy, textile reuse, and recycling, aligning with the **European Union Strategy** for Sustainable and Circular Textiles.

Our commitment to sustainability goes beyond our products. This year, we are excited to announce that our operations will achieve a significant milestone: **complete electrical self-sufficiency**, alongside **eliminating plastic from our production processes**. These advancements represent our dedication to minimising our ecological footprint and leading by example in the textile industry.

We invite you to join us in **redefining the future of textiles**, where each thread weaves together style and sustainability. Together, we can create a lasting impact and pave the way for a **greener tomorrow**.

Thank you to all our trusted partners and customers for your unwavering support. As we embark on 2024, we remain devoted to our sustainability mission and look forward to continuing our journey with you, introducing **creative and inspiring products** that respect our planet.

UNRAVELING SUSTAINABILITY

No matter the project, there's always a perfect Hooooked yarn. You find here crochet and knitting swatches for all the yarns available in the catalogue. All look different because of their composition, texture and yarn weight. Take a look at our thick and stretchy reused textile Zpagetti ; recycled cotton RibbonXL, Cordino, Spesso, Milano, Wavy Blends and Atlantica, with seacell ; and jute yarn Tossa and Amazónia. The most difficult part will be choosing your favourite one.

CONNECT TO THE OCEAN

Atlantica is our ocean-inspired yarn, crafted with a blend of **Seacell™ LT**, recycled, and organic cotton fibers. It's important to note that Seacell is derived from seaweed, an abundant and **sustainable** resource, ensuring no animal use. In the production of Seacell™ LT, seaweed serves as the active ingredient combined with lyocell, which acts as the substrate and stabilizes the seaweed. This process embeds essential substances like vitamins, trace elements, amino acids, and minerals into the fiber, providing beneficial properties for the skin. The combination with **recycled and organic cotton** results in a **super soft and lightweight yarn, perfect for crafting** cozy garments that are delightful to wear. Simply awesome!

The process of incorporating seaweed into the fiber involves washing, carefully drying, and grinding it into a powder. This powder is then added to the cellulose fiber during the lyocell manufacturing process.

100% ORIGINAL T-SHIRT YARN

Zpagetti is the original t-shirt yarn, crafted from **superior quality textile selvages and remnants** sourced from the fashion industry. At Hooooked, we meticulously select and sort textiles in small runs based on colour shade and composition. Our collections are constantly evolving with **new colours added daily**, so it's essential to stock up enough yarn for your project! Zpagetti is the ideal material for larger knit and crochet projects, including bags, rugs, poufs, homewares, and fashion accessories.

Prints & solids: The composition of our sets depends on our stocks and may vary daily.
For specific questions and requests always check with our sales team prior to ordering.
We are here to help you!

RECYCLED COTTON FILLING

Make your creation natural through and through. Our filling is crafted from recycled textile waste sourced from the fashion industry (85% cotton) and contains no additional dyes. Choose from three different colours to prevent stuffing from showing through the stitches on your project. Hooooked filling is lightweight, voluminous, and machine washable at low temperatures. One bag of 250g is sufficient for two Hooooked amigurumis.
